25X1

A new electric power plant has been constructed at Wrzeszcz in the triangle formed by Ul. Kilinskiego and Nastawna and the Gdynia-Gdansk (Danzig) railroad line. It is alleged that this station supplies the Gdynia-Gdansk-Nowy Port electric railroad lines. The main hall of the power plant, which is 30 meters long and 12 meters wide, has already been completed. Work is now proceeding on the setting up of the engines and completion of the boiler house.
